# Web developer intern

ESN Italia is searching for a motivated, smart and dedicated person who loves communication and international environment and is willing to work in an international organization whose aim is to promote Erasmus+ and help international students doing their exchange in Italy. **To apply for this position, an Erasmus+ grant is required.** No financial compensation is directly given by ESN Italia.

## Main tasks and responsibilities

The intern will help the IT team of the organization in the following task:

- Creation and maintenance of basic web contents (web pages, etc.)
- Websites maintenance
- Development of IT services

## Desired skills for the position

Skills that are considered a must:

- Languages: Italian B1 or English B2
- Google App: Drive, Gmail, GDocs
- Practical experience with web languages (HTML, CSS, Javascript)
- Practical experience with PHP
- Practical experience with databases management (MySQL)
- Proactivity and ability to work in a team

Skills that are considered a plus:

- Basic knowledge of Drupal
- Knowledge on Node.JS for programming with Javascript/Typescript on the backend
- Experience with Amazon Web Services or similar Cloud infrastructures
- Experience in ESN or other NGO
- Former Erasmus experience is a plus

## Additional info

ESN Italia will provide the intern with a office desk, a computer with internet connection and the needed software, the monthly Rome travel card and assistance in finding a suitable accommodation in Rome.

**In order to apply for the position, send an email with attached your CV and motivation letter to [applications@esn.it](mailto:applications@esn.it).**
